MUSIC REVIEWS 0 COMMENTS 2

Road to Mana continues to assert himself as a real player in the global prog house scene with another super smooth EP. This one has three originals and a remix from Chris Maico Schmidt.

Chains opens things in tense fashion, with pained vocals laid over crunchy beats. It's a driving track with synths rising up to the heavens. Deeper At Last is more sedate, sinking you into a soft groove with thoughtful pads and warm wavy drums that are well designed and full of character. Chris Maico Schmidt then rounds things out with a tense vocal anthem that has driving drums and pained vocals laid over the tops. It's big and bold and sure to make an impact, as will this whole superb EP.
